# Unix Honor Pledge for CS 2150, Spring 2016

On my honor as a student at the University of Virginia, I agree, unless specifically given permission otherwise:

- To not use any integrated development environment (IDE) for the development of C++ or assembly programs for the work for this course. These include, but are not limited to, such development environments such as Eclipse, Netbeans, Xcode, Geany, Visual Studio, Atom, etc.
  - This applies to IDEs on any platform, such as Microsoft Windows, Mac OS X, Unix, etc.
- To develop my course programming work on Unix or Unix-like system. These systems include Linux (any variant), FreeBSD, Solaris, Unix systems installed on a virtual machine running on another OS (such as Windows or Mac OS X), remote Unix systems, and others as discussed in lecture.
  - IDEs cannot be used in such systems, however, as that defeats the purpose.
  - Mac OS X is allowed as long as the Unix-based features are used, and IDEs are not used.
- If there is any doubt about the applicability of this pledge, I will ask before assuming.

Failure to abide by this agreement will mean an immediate failure for the course, and the raising of honor charges.
